

INTEGRATION PARTNERS

agentTRAX is integrated with several title and escrow partners for the letterTRAX and jacketTRAX portions of the application suite.

Integration allows users to remain in their title and escrow software to request either a Closing Protection Letter (CPL) or commitment/policy jackets through services provided by agentTRAX.

Using the integration will eliminate the need to rekey information already contained in the escrow file.

Premium information will pull from the escrow file to report to FNTG's Agency Accounting department, eliminating the need to prepare a separate remittance report.

Many partners allow issued letters to be voided or issued jackets to be voided/edited or reinstated using the integration.

Here is a list of our integration partners, along with the email address for their support teams:

Software Vendor	Support Contact
SoftPro 360	Support@softprocorp.com
Landtech	Support@landtechdata.com
Title Express	FAHQ-DL-SMS-ProductMgmt@firstam.com
